

SUPPORT
EQUAL PAY
FOR EQUAL WORK

*In more than 50%
of American households,
women are breadwinners*

*It's true, in more than 50% of American households,
women's salaries help pay the bills, buy groceries and
provide for their families.*

When women earn less than their fair share, that loss harms women and weakens their families, communities, and our entire economy.

Send or share this card to show that you support equal pay for equal work:
